**invisalign®**

The Clear Alternative to Braces

### Better fit, better comfort

Aligners made from SmartTrack® material are more comfortable, better fitting, and easier to put on and take off.

### Up to 50% faster treatment times

With weekly aligner changes, you're on your way to the smile you want even faster.

### Proven results

SmartTrack® material and SmartForce® features are clinically proven to achieve 75% more predictable tooth movement.

### Effective for a variety of cases

Proprietary SmartForce® features and SmartTrack® material make Invisalign treatment effective for complex cases. With innovations like these, your doctor can move your teeth more precisely.

### Unique feature for teens

Invisalign clear aligners for teens contain compliance indicators that fade from blue to clear to help gauge wear time.

Ask for your no-obligation Virtual New Smile Simulation  
and see your results before you even start treatment.
